Your film is our passion

EasyOpen bags

Bags in accordance with your own blueprint! We supply a tailor made bag, fitted for your product's box or crate. Perfect in size, shape, material and thickness.

Our patented EasyOpen bags enabling you to pick a single bag from a bundle. Automatically as well as manually.

Film reduction

We produce our premade bags at licensed partners and offer you the thinnest possible bag for your application within standards of food safety. Not only reducing your material costs but also your ecological footprint. Send us your box or crate size and we calculate the best fitting bag. A film thickness reduction up to 50% is no exception. Let's find out what's suitable for your product!

We care

With experience gained from billions of bags sold in the packaging industry our Bags team offers individual solutions. Our service does not stop after your first order, we monitor the market continuously and inform you about the latest developments.

EasyOpen
stand!

Manual bag placing

With the ingenious EasyOpen Stand you will increase your productivity up to 50% and you will gain more happy employees. Open the premade bag in one movement, making the work more ergonomic and efficient. Work fast with minimal effort!

2 steps

How manual bag placing works

1 Bag opening

2 Bag inserting

Hygienic design

Entirely made of stainless steel

Save up to 50% time

The fastest way for manual bag placing

Multifunctional

Bundles on both sides of the stand

Ergonomic and flexible

The supports are adjustable in height

Automatic bag placing

Looking for 24/7 non-stop production? Using EasyOpen bags along with our high-quality packaging machines will upgrade your packaging process. The bags are placed in the blink of an eye, allowing up to 25 placed bags per minute. Achieve maximum efficiency and maintain a continuous workflow, all while reducing manual labour.

2 steps

How automatic bag placing works

1 Bag opening

2 Bag inserting

**We calculate
the best fitting
bag for your
box or crate**

**24-hours
non-stop**

Bag refill without any
production stop

**Thinnest
film**

Machines are able to
handle our thinnest
bags down to 10 um

Always happy to serve and assist

Who we are

We are Niverplast. A Dutch packaging company determined to find the best solution to your packaging problem. We are passionate experts that understand your business like no other. With a focus on bag-in-box enclosures, we design, develop and market our own bags and machinery.

What we can do for you

Niverplast develops innovative film packaging solutions to protect and transport a wide range of products from bread and meat to semi-liquids and non-food. Our primary focus lies in packaging products that require bag in box enclosures. Specific knowledge of the internal logistical process is the pillar of most Niverplast solutions.

Our passion

So yes, we're in an industry that has its focus on producing machinery and bags. And yes, we do build the most durable, efficient and reliable machines. But we're also a people business.

Without our people, we would be nowhere. We want them to be happy, because we believe that happy colleagues create happy customers. We guarantee you a 100% happiness with Niverplast as well and we won't stop until you're satisfied with your packaging solution.
