The patented EasyOpen bags provide you the easiest way to pick a single bag from a bundle to place it in your boxes, crates or buckets. This ingenious hanging system, consisting of a support, a pre-cut in your bags and special pins to hang them, reduces time. The supports are adjustable in height, equipped with casters and store two bundles of bags, one at each side.

THE RESULT

You save up to 50% on your manual bag placing time, make the work more ergonomic and less boring.
